Dear Dicki and Jim - Dad had to come to Walla Walla to look at their job on the Filler Goose Dam and he wanted me to come with him, so I am missing out on the bridge tournament at the Holiday Inn in Bellevue this week-end. We will be here for a week and plan to go to the tournament in Yakima next week-end and then home. We flew here and thank goodness we left Seattle just before the big wind storm hit. Our plane landed in Spokane, Pullman, Lewiston and Walla Walla. We had to take that route because it got Dad to the meeting in time. We have a rented 1971 Mercury to drive and I like it.

I just called the Unit Secretary and found out about bridge games here. She is going to play with me at their game Wednesday afternoon.

Then there is a game Tues.
Night and Sunday Night so
I guess I will find some-
thing to do while I am here. Dad
is at the office now and is missing
the basketball game that he wanted
to see.

Jeanne was really pleased to get
your letter. Last Sunday was her
birthday and I baked her a cake
and put candles on it and we
took it over. Mary and Mike went
also.

My painters were ~~two~~ real nice
boys and they did a very good job.
The name of the Buller's boy is
Jim Mason. His brother was in
Jeanne's class.

It would be really nice if you
moved to San Diego next year. It is
fun moving around to different
places and then you find out where

you really would like to
live if you have a choice.

I am glad your job is going
along good, Jim. It sounds very
important and interesting.

I hope your folks will be
able to visit us soon Vicki. I am
going to write to them when we
get home.

We might have to come back here
and stay for a month. My car
will really suffer then unless I
can find someone to take care of it.
The dam is about 65 miles from
Walla Walla. But Dad won't have
to be out there every day as he
has an office here in town. The
Meeting yesterday was at the dam
and I sat in the car for three
hours. I had a nap and read the

Newsweek so the time went fast.

Dad is back now so I will go out and mail this and will write again soon.

Love,
Mom.

I hope the little hedgehogs back arrived by now.
